

# SUSTAINABILITY REPORT 2025

We generate in our own facilities **2,200 tons** of organic compost.

We reduce our footprint by nearly **4,000 tons** of CO<sub>2</sub> emissions yearly.

We incorporate more than **200 million tons** of organic harvest waste into our fields.

We do **organic farming** on **1235 open crop** acres and **118 greenhouse** acres, all CCOF certified.

Bee **friendly farming**.

We use **100% drip irrigation**. This system allow us to **save 70%** of water.

**Full crop rotation program** and other concrete actions that protect soil from degradation and erosion.

Our packaging materials are **100% recyclable**.

**800 trees** planted, preventing emissions of **24 tons** of CO<sub>2</sub>.

**Birational practices.** We reduced the use of more than **220 tons** of chemical fertilizers in our fields.

**138,294 ft<sup>2</sup>** of solar panels added.
